Welcome Message

Dear Esteemed IAP Colleague,

It is with immense pride and heartfelt joy that we extend to you a warm welcome to **PedAllercon 2026**, the Annual Academic Festival of the IAP Pediatric Allergy and Immunology Chapter (PAAI). This prestigious gathering has, over the years, earned a reputation for presenting the most cutting-edge scientific insights delivered by some of the finest minds in the field—both from India and across the globe.

In keeping with this rich tradition, the Organizing Committee has meticulously curated a scientific programme designed to engage and inspire a diverse spectrum of delegates. From enthusiastic postgraduate students embarking on their academic journeys to seasoned pediatric allergologists shaping the future of clinical practice, PedAllercon 2026 promises to be a confluence of knowledge, innovation, and collaboration.

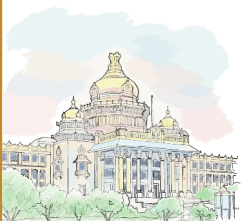

Over the course of two intellectually vibrant days, a galaxy of distinguished speakers from India and abroad will share their expertise, deliberate on contemporary challenges, and enrich us with their academic brilliance. Complementing these sessions are hands-on workshops, thoughtfully planned to sharpen practical skills in Allergy and Immunology, ensuring that participants leave not only informed but also empowered.

We are equally delighted to provide a platform for young postgraduate researchers, who will showcase their work through oral and poster presentations. Their contributions will be celebrated, with awards recognizing the most outstanding research—nurturing the next generation of leaders in pediatric allergy and immunology.

Beyond the academic feast, we invite you to experience the warmth and hospitality that is the hallmark of the Garden City. It is our sincere hope that PedAllercon 2026 will leave you enriched both intellectually and personally, fostering connections that endure well beyond the conference.

On behalf of the Organizing Committee, we look forward to your presence at this **academic extravaganza** and to sharing with you an unforgettable celebration of science, learning, and camaraderie.

With warm regards,
Organizing Committee, PedAllercon 2026

Conference Highlights

- A celebration of innovation in Pediatric Allergy, Asthma, and Immunology.
- Inspiring talks from renowned experts across the country and beyond.
- Practical insights into food allergy, immunotherapy, and precision asthma care.
- Engaging case discussions that challenge and enrich everyday practice.
- Thought-provoking debates on emerging therapies and evolving concepts.
- Exploring the impact of environment and lifestyle on childhood allergies.
- Hands-on learning to help clinicians deliver better patient care.
- Opportunities to network, collaborate, and share experiences with peers.
- A perfect blend of science, learning, and meaningful conversations.
- Join us at PedAllercon 2026—where knowledge meets compassion and community

Star Faculty

PedAllercon 2026 promises to be a memorable confluence of minds, bringing together some of the finest names in Pediatric Allergy and Immunology. We are privileged to welcome our distinguished international faculty

Dr. Maria Torres,

Dr. Mohamed Shamji,

Dr. Tarindi

whose expertise continues to inspire the global allergy community.

Joining them are stalwarts of Indian allergy practice, including

Dr. Neeraj Gupta,

Dr. Narayan Prasad Modi,

Dr. Krishna Mohan,

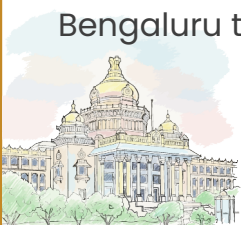

Dr. Vikram Patra,

Dr. Nandana Bala,

Dr. Suneela Nayak,

Dr. Balachandra, and many other eminent specialists who have shaped the field through their dedication and scholarship.

Beyond the science, PedAllercon is an opportunity to reconnect with friends, forge new collaborations, and celebrate our shared commitment to improving the lives of children with allergic diseases. We warmly invite you to be a part of this journey as we learn, share, and grow together in the vibrant city of Bengaluru this September.

PRECONFERENCE WORKSHOPS

A STEP BEYOND THE LECTURE HALLS

Immerse yourself in a hands-on learning experience at PedAllercon 2026.

01

ALLERGY DIAGNOSIS

A comprehensive journey through the principles and practice of allergy evaluation, including SPT, Specific IgE, CRDs and more.

02

ALLERGY THERAPEUTICS

Explore the latest in immunotherapy, biologics, and emerging treatment strategies.

03

FOOD ALLERGY

Gain practical insights into the diagnosis and management of one of the fastest-growing pediatric challenges.

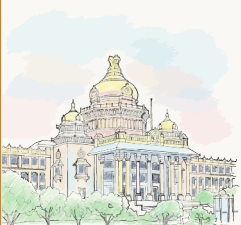

04

PULMONARY FUNCTION TESTS

Master spirometry, oscillometry, FeNO, and other essential tools for respiratory assessment.

Designed by **experts and delivered by masters in the field**, these workshops promise practical skills, interactive learning, and valuable take-home messages to elevate your clinical practice.
